Applications of Innovative Industries Policy & IoT System

5 Major Innovative Industries Policy

Application of Industrial Internet of Things

Taiwan's advantage in Intelligent System

Taiwan has the advantage in developing AI/smart system with supporting policies, intellectual and complete industrial cluster. With the government supporting, Asia Silicon Valley Development Plan as an integrated platform is intended to guide the transformation of Taiwan innovative economy. The plan establishes an IoT Industry Major League team, led by manufacturers such as Acer, Advantech and Mediatek with over 400 businesses and startup companies forming an industry ecosystem.

Industrial Clusters

- Textile
- Healthcare

- ICT
- Sports & Leisure

- Bicycles
- Machine Tool

- Orchid
- Super Yachts

- Automobile Electronic
- Biomedicine

- Automobile Parts & Accessories
- Green Energy

- Fastener

Taiwan is the main base for R&D and production of functional textile. Now, Smart Textile is one of the developing priorities.

Taiwanese enterprises have a long collaborative relationship with multinationals. It makes Taiwan become a producer of upstream medical devices and a key link in the global supply chain.

These clusters make Taiwan the "go-to" location for procurement and design.

The export amount of sporting goods sector reached US\$ 1.9 billion in 2018.

The A-Team (a team comprised of 20 bike and parts companies) has created innovative new products with high quality.

Taiwan is one of the top exporting countries for machine tools.

Perfect growing environment, advanced breeding method and patent protection enhance the competitiveness of the orchid industry.

The success of Taiwan's yachts rests on three main points: high building skills, superior craftsmanship and customized solutions.

The auto electronics industry of Taiwan is founded on the strengths its well-developed ICT and auto parts industries. In 2018, the auto electronics industry reached an output value of US\$6.6 billion.

Innovative medical devices and new marketing models driving and forming a complete production and service ecosystem.

The auto parts industry has the capability of providing original equipment (OE) and after market (AM) service to global supply chain.

The Photovoltaic industrial cluster development encompasses the complete supply chain.

Production accounts for 30% of all fasteners internationally and is exported to over 140 countries.

Main Events & Trade Shows in Taiwan

- Annual Trade Shows
- 2019 International Events

The symbol of Taiwan Excellence honors Taiwan's most innovative products that provide tremendous value to users worldwide. All products carrying this symbol have been selected for specific Taiwan Excellence Awards based on their excellence in design, quality, marketing, Taiwanese R&D and manufacturing. Initiated by the Ministry of Economic Affairs (MOEA), R.O.C. in 1992, the symbol of Taiwan Excellence is recognized by 102 countries.

Bureau of Foreign Trade (BOFT), MOEA

The Bureau of Foreign Trade (BOFT) under The Ministry of Economic Affairs (MOEA), R.O.C. is responsible for implementing policies and regulations governing foreign trade and economic cooperation. Established in January 1969, BOFT's role and position have been adjusted regularly to meet the needs of the ever changing international economic and trade environments. The BOFT has been guiding and working with the Taiwan External Trade Development Council (TAITRA) in numerous trade promotion projects and activities both internationally and domestically. Having worked closely with TAITRA for many decades, BOFT continues to commission TAITRA for various critical government projects relating to business, trade and investments, while promoting Taiwan internationally.

Taiwan External Trade Development Council (TAITRA)

Founded in 1970 to help promote foreign trade, the Taiwan External Trade Development Council (TAITRA) is the foremost non-profit, semi-governmental trade promotion organization in Taiwan. Jointly sponsored by the government, industry associations, and several commercial organizations, TAITRA assists Taiwan businesses and manufacturers with reinforcing their international competitiveness and in coping with the challenges they face in foreign markets. TAITRA boasts a well-coordinated trade promotion and information network of over 1,300 international marketing specialists stationed throughout its Taipei headquarters and 68 branch offices worldwide. Together with its sister organizations, Taiwan Trade Center (TTC) and Taipei World Trade Center (TWTC), TAITRA has created a wealth of trade opportunities through effective promotion strategies.

Taiwan Excellence Pavilion

Brand Connotation

Items of Selection

Taiwan Excellence shows the competitive "Innovative Value" of Taiwanese product. Initiated by Ministry of Economic Affairs (MOEA), R.O.C. (Taiwan) in 1993 and implemented by Taiwan External Trade Development Council (TAITRA). The symbol of Taiwan Excellence honors Taiwan's most innovative products that generate tremendous value to worldwide users and it is recognized in 102 countries.

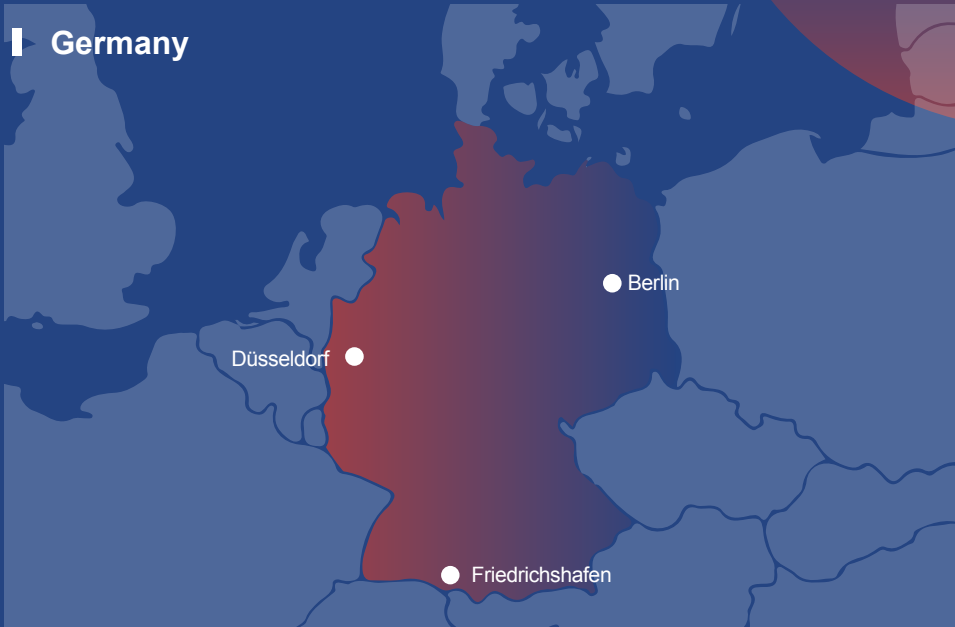

The symbol endures 4 brand connotation. The first icon "Energy" represents the vigor that distinguishes Taiwan's local industries. The second icon "Cooperation" represents the bonds of solidarity that unite Taiwan's manufacturers. The third icon "Perfect" represents Taiwan's manufacturers pursuit of

perfection and excellence. The fourth icon "Fulfillment" owes its origins to the traditional Taiwanese cultural affinity for "completeness" or "wholeness".

The Taiwan Excellence Awards selection has been implemented to select annually the most innovative products based on their excellence in criteria including R&D, Design, Quality, and International marketing. Taiwan Excellence Awards are given to products that stand out the selection and show competitive "Innovative Values". All award winning products are entitled to apply the Taiwan Excellence mark for marketing and promotional purpose. Award-winning companies are proud to embrace the mark as the highest honor of Taiwan national recognized and endorsed excellent products.

RETINA

The "RETINA" is a stereotactic surgery navigation system for Neurosurgery, Craniofacial, E.N.T., Orthopedics, Plastic Surgery, Oral and Maxillofacial Surgery and other types of minimally invasive surgical applications.

The RETINA combines intelligent medical technologies and services which can integrate digital medical imaging for better surgical accuracy. The RETINA also reduces unnecessary tissue injuries, to aid in minimally invasive surgeries, improve surgical quality, and reduce the risk of surgical complications, which provide overall better medical service for patients.

Wireless Medical Camera FM-100AS

- Creative industrial design providing a totally comfortable and very light wearing camera for dentist and different medical surgery which requires narrow field-of-view (10 degree) high quality video with scalable zoom-in recording.
- Precise optical positioning with auto or manual focus lens (from 5cm ~ Infinity), which resolves limitation of usage during medical treatment and enhance productivity and efficiency.
- Deliver a unique wireless recording camera with broadcasting and cloud streaming capability.
- Create location-free convenience to medical doctors.
- Providing user-friendly companion Apps (iOS & Android)

HIWIN Robotic Gait Training System MRG-P100

An innovative walking training system that combines weight-bearing standing, repetitive stepping and balance training for early stage patients, which makes early intervention happen in physical therapy with robotic assistance.

- Upright walking robot in full weight-bearing position in early intervention
- Intensive proprioception input and repeated movement enhance neuroplasticity and motor relearning
- 3 in 1 training system. (standing, stepping, and balance training)
- Quick setup in 5 minutes.
- Comfortable training experiences with patented support system.
- Relieve burden of therapists and feasible cost for hospitals.

Product Information

<https://www.hiwin.tw>

HIWIN Robotic Endoscope Holder MTG-H100

It provides precise control of endoscope and stable images to ensure surgery quality.

- Patented Remote Center of Motion (RCM) design ensures minimal incision site and zero force for wounds.
- Available for multiple control ways – pedal, manual and intelligent auto tracking system.
- Compatible with advanced surgical techniques including 3D/4K endoscope system and single port surgeries.
- Flexible installation (mount on bed/ trolley) for quick set up.

Product Information

<https://www.hiwin.tw>

HTC VIVE Pro Eye

The VIVE Pro Eye is designed to meet the needs of the most discerning users. The integrated precision eye-tracking technology opens the door to deeper data analysis through tracking and analyzing eye movement, attention & focus; this allows more insights on user performance and interaction, and ultimately empowers better simulations and effective training scenarios. Furthermore, it can provide a more intuitive experience through the implementation of gaze-oriented menu navigation. Point, select, and zoom faster and easier than ever before. Enable more natural movements and gesture controls in virtual reality.

Mirror Hand HS002

Mirror Hand is a light-weighted and easy-to-operate hand rehabilitation robot that can be used in conventional rehabilitation units in hospital and clinic. In addition to assisting bilateral training and mirror therapy, Mirror Hand allows its user to interact with real objects. Mirror Hand assists the patient to perform movements that resemble the activities of daily living. It also seeks to improve the characteristic that rehabilitation devices are often bulky and cumbersome, which allows it to be used in the hospital and clinic setting easily. Mirror Hand's heart-warming appearance and design also bring the device and patients closer together.

SURGLASSES 3D Endoscopy +

- Innovative Anatomy Table for Medical and Educational purpose
- Quick DICOM medical image processing platform
- Complete solution for Pre- Surgical Planning
- User friendly interface for users of any class

Asclepius TBK-84

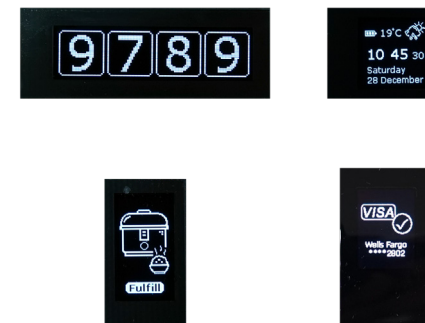

- Combination of smart surgical glasses with 3D endoscopy system
- Co-ordinate about the consistency of 3D Endoscopy via smart surgical glasses
- Increase in the efficiency of the surgeons as no need to look at external monitors.

In-Cell Touch Series

WiseChip is going to launch the In-Cell Touch OLED Display product series. Based on the enhanced manufacturing process & new technology development, the new product series no longer need to laminate the touch sensor onto the PMOLED Display and are able to directly support the touch function on the extremely thin solution. User will save the extra cost from the touch sensor itself.

Area Color TOLED Series

WiseChip Transparent OLED products with a great transparency rate of over 65% that features has clearly 360° fully viewing angles & ultra-high luminance of 3,000 nits. Transparent OLEDs, which can be used for displays in HUD, wearable, medical, industrial and even Augmented Reality (AR) technology. WiseChip Transparent OLED technology is more conducive to implement the advanced product design.
