## About Taiwan Excellence

The Taiwan Excellence Awards were established in 1993 by Taiwan's Ministry of Economic Affairs (MOEA) to recognize and celebrate the exceptional achievements of Taiwan's most innovative products.

Each year, eligible products go through a rigorous selection process that assesses their products based on four important factors: research and development, design, quality, and marketing with the key criterion of being Made in Taiwan.

The Taiwan Excellence mark has gained global recognition as a prestigious symbol of quality and design, effectively showcasing Taiwan's impressive product innovation.

## Mecom Industries Corp.

Mecom MCM, a plant-based cutting fluid company, is the only manufacturer in Asia that handles research, development, production, and manufacturing of plant-based cutting fluids in-house. Its products have been honored with the Taiwan Excellence Award in 2019, 2023, and 2025, as well as the Innovation Research Award. The cutting fluid offers a long service life of 5 to 10 years, extends tool life by 30–50%, and is clean, eco-friendly, and easy to manage.

[Read More →](#)

### MCM G2 SUPERSYN SUPERSYN 900AL/920AL/800SX/280EX

**Product Features:** The MCM G2 SUPERSYN plant-based metal cutting fluid has successfully addressed the instability of the first-generation product, which was limited to regional direct sales and required intensive maintenance. Through chemical modification and esterification, the product has been completely transformed—achieving over 90% biodegradability along with a well-balanced functional profile. With proper management, its service life can reach 5 to 10 years, demonstrating outstanding durability and stability.

This is an environmentally friendly, climate-conscious green energy innovation.

**Innovation Value:**

- Maintain a leading position in technology and expand the technological gap with competitors
- Gain pricing power and market influence
- Leverage environmental trends to drive net profit
- A leading brand of plant-based metal cutting fluid with 0% mineral oil content
