Acer Swift 5

Swift 5

Weighing just 990 gram, the Swift 5 is the world's lightest* 15-inch notebook PC that delivers the ultimate combination of portability, usability and style. The Swift 5's groundbreaking design features top and bottom covers that are constructed from magnesium-lithium alloy, which is 35 percent lighter and four times stronger than aluminum, for a thinner/lighter design while ensuring durability without bending or twisting. The magnesium-aluminum alloy, which is up to 20 percent lighter and twice as stronger as aluminum, covers the palm rest area to provide an extra sturdy base. This unique blend of alloys delivers an impressively light yet durable design.

Portable UVC LED Water Sterilizer System

This Portable UVC LED Water Sterilizer System disinfects and reduces the risk of bacterial contamination by killing 99.9% of germs (e.g. E.coli). This UVC LED disinfection module is small in size, safe, and offers energy-saving and a longer lifespan compared to conventional mercury lamp disinfection systems. An embedded sensor will activate the UVC LEDs when water flow is detected. This sterilizer can disinfect two liters of water per minute. It also monitors UV light intensity to alarm a change to the UV LEDs. The module can be integrated with a water filtering system and is capable of being a smart home appliance, making it convenient for managing the safety of direct drinking water.
