Hand Tool Statistics & Clusters

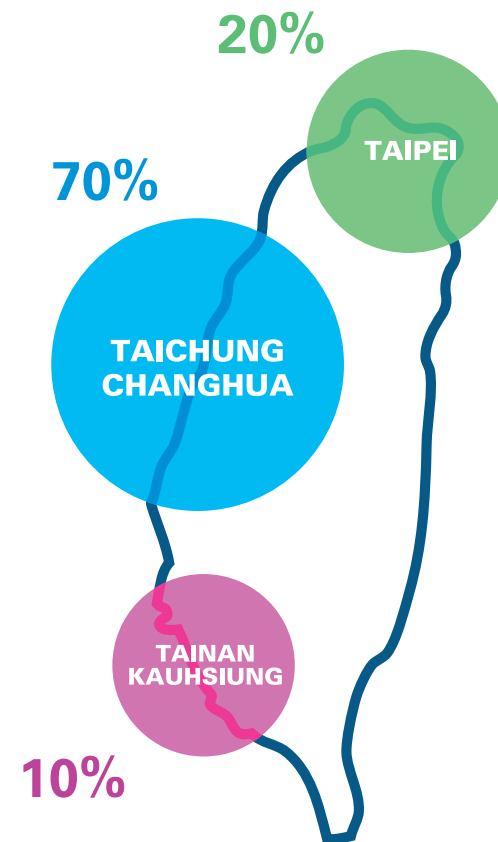

In regards to the largest sources of USA's imports, Taiwan is the fourth largest importer into the USA.

2018

Annual Value (USD)	4.07 billion
Manufacturers (un.)	2,200
Total Employees (pl.)	48,000

Export Value (USD)	3.86 billion
Top 3 export Country	1. U.S.A 33.16%  2. China 11.59% 3. Germany 5.9%

Import Value (USD)	0.71 billion
Top 3 import Country	1. China 40% 2. Japan 29% 3. Germany 8%

Hand Tool World Rankings

Taiwan is ranked 1st in socket and components.

Taiwan is ranked 6th in hand tools exports and 3rd in the unit-price worldwide.

Taiwan is ranked 3rd in wrench production worldwide.

Professional Stepladder (Single Side)

P-FSS-06

- Durable non-conductive 'C' channel side rails in high-visibility safety yellow.
- Super tough copolymer top for strength and durability.
- 80mm wide slip-resistant serrated aluminum steps for safe climbing.
- Inside spreader arms complete with 'wrap-around' sleeves that strengthen the spreader-to-rail connection and protect the spreader arms during storage/loading/transporting.
- 500 mm Rear horizontal struts; top and bottom struts are reinforced with zinc-coated steel diagonal braces.
- Bottom steps are reinforced with zinc-coated steel diagonal braces;
- Heavy-duty extra-large PVC rubber safety feet providing protection and slip-resistance on the rails.
- Made in Taiwan.

Multi-Function Articulation Ladder

T6-37

- Made of ultra-strong aluminum alloy.
- Each step holds up to 150 kg.
- Large rubber feet pads.
- The ladder are treated with black anode to prevent oxidation, increase product lifespan, and flatten and smoothened.
- Multifunctional joint ladder structure to enable versatile use of the ladder in different environments and sites.
- Enhanced rubber guards preventing scratches from constant touching and internal dust buildup.
- Great for household, plumbing and electrical work, monitoring construction, high technology industries, sanitized rooms, and outdoor activities.
- Made in Taiwan.

Sloky Master Kit Torque Screwdriver

Master Kit

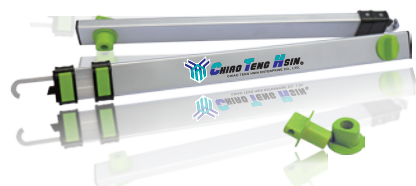

Highly-integrated multi kit; 3 handle types with 20 pcs of 50 mm bits (TX/IP/HX); user-friendly for machining, turning and milling CNC cutting tools.

Sloky Pro-Station Torque Screwdriver

Pro-Station

Most popular multi-kit in the Emo show; Pro Station comes in 3 handle types with 22 pcs of 50 mm bits (TX/IP/HX); user-friendly for machining, turning and milling CNC cutting tools.

Aluminum Telescopic Steady Support

ATSS-02

- Structure comprised with 2 concealed stainless steel frameworks for easy storage;
- Easy operatable U-shaped latch;
- Matted black powder-coated aluminum;
- Designed to be added on ladders for higher safety.

Sloky Togo Kit Torque Screwdriver

Togo Kit

Best-selling multi kit; Sloky universal and straight handles comes with 6 pcs of 25 and 50 mm bits; user-friendly for machining, turning and milling CNC cutting tools.

LED BALLOON LIGHT MINI (BL00A016)

- Made with a special coating of translucent nylon and filled with air, like a balloon;
- Combined with an internal blower and LED panels to exhale the heat and blow the light cover;
- Light cover provides glare-free lighting for personal safety and worker-comfort in the work place;
- Long lifespan, low power consumption, and energy-saving;
- Can be mounted with a tripod and trolley; light, compact and easy to transport;
- 50W, light-weight, used for camping or parties.

LED BALLOON LIGHT DUAL COLOR LED BALLOON LIGHT

- Two types of light covers: Omni (white) & Reflective (blue on top), washable and replaceable;
- Reflective light cover directs the lighting toward the ground;
- Combined with an internal blower and LED panels to exhale the heat and blow the light cover;
- Enhance personal safety and worker-comfort in the work place, glare-free;
- Long lifespan, low power consumption and energy-saving;
- Can be mounted with a tripod and trolley;
- Light, compact and easy to transport using carry bags.
- Easy adjust to yellow (2000 K) or white (5000 K). Yellow light can be used in foggy place.

Insulated Socket Wrench Set (6P) 1/2*24PC(MM) IS-BM424A6-B

RE-DAI insulated sockets are injected with patented design technology that protects the insulated layers from rubbing directly with work tools to extend its lifespan. Double-insulated layers design outside of the red TPR layer provides a comfortable holding and serves to protect the internal yellow PP layer. It also shows the user its wear and tear condition when the internal yellow PP layer is visible. Certified by German VDE: Testing and Certification Institute under certificate No. 40032700. 100% inspected: every insulated tool must pass basic out-surface inspection & 1000V dielectric test before shipping.

Easy-On Ratchet Handles 048RD

- Simple and effective switch; Easy reversible setting with lighting switch design;
- More powerful and durable; 72-teeth designed inner mechanism supplies paw and gear to generate greater strength in torque and durability;
- One-piece forging; Made of premium-grade chrome vanadium steel giving users more confidence while operating it.
- Well-designed ergonomic handle; New visible streamlined shape design provides easy and smooth moving from its handle to every position.

EcoTap Deck/Wall Mounted Hand Dryer

EcoTap is a deck mounted/wall-mounted high-speed tap hand dryer. The hand dryer is hidden below the bench top or behind a wall with only the spout affixed to the wash basin/wall, creating a new clutter-free washroom experience. A special feature of our EcoTap hand dryer is the intelligent temperature control technology. It detects the room temperature, and adjust the heating element. The hand dryer automatically detects and uses the residual heat from the heater to reduce power consumption. The benefit is particularly apparent in high traffic locations. EcoTap is also a quiet high speed hand dryer. The new patented air outlet reduced the noise level and increase the drying efficiency. EcoTap hand dryer is ideal for construction projects and automatic wash station. Designers can also customized the deck mounted/wall mounted spout to match any washroom.

EcoSwift High Speed Hand Dryer

EcoSwift is the smallest high-speed hand dryer on the market. It takes years of experiences to make a hand dryer that is the size of one's palm. EcoSwift's hand dryer has a Universal Design and is ADA-Compliant (Americans with Disabilities Act); it fits in every washroom, especially limited-space rooms such as on trains and airplanes. The EcoSwift hand dryer can also be installed behind the mirror to create a modern and clean look in public bathrooms. Furthermore, the EcoSwift high-speed hand dryer has a compact inner structure, which makes it easier to customize for different projects. It allows for a unique and customized hand dryer, which enable design devoid of obstruction from internal mechanisms.

Easy Releasable Cable Tie

HB/PHB SERIES

- KSS has developed a patented easy-press lever by combining power and art from outward ergonomics; an easy releasable cable tie is strong and easy to use;
- UL-approved materials comply with RoHS and FDA;
- Features
 - a. Releasable, environmentally- friendly.
 - b. Ergonomic, easy-press lever makes release easier.
 - c. Smooth surface prevents damage.
 - d. Releases with one hand, while the body slides out automatically.

Hook Tie DP-2-A/A Series

- Use it in your kitchen, bathroom or bedroom, even on your baby stroller, convenient for bundling and hanging.
- Patented design.
 - Two-direction hook tie.
 - 360 degree rotatable hook fits any direction.
 - Releasable, reusable and environment friendly.
 - Maximum load up to 1.5Kgf is proved by SGS laboratory.

EcoMo High Speed Hand Dryer

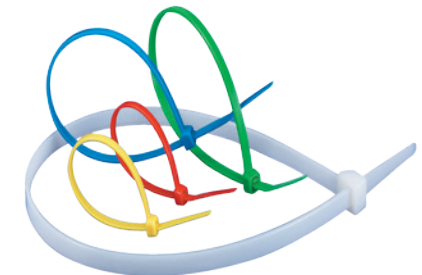

EcoMo is an ergonomic, high-speed, handicap-friendly hand dryer. It is ADA-compliant and therefore suitable for installation in disabled washrooms. It offers a comfortable natural position, no matter the position - wheelchair or using crutches, users can effectively dry their hands without water splash-back, using EcoMo's high-speed hand dryer. It's also a great hand dryer for high-traffic locations, with its absorbent, ceramic pad that prevents water overflow. Unlike other vertical hand-in dryers, the drying area is the perfect size for hands ensuring drying efficiency. Lastly, there is an anti-bacterial ABS protection cover and a super HEPA filter, which eliminates over 99% of bacteria. EcoMo hand dryer is much more than you expect!

Nylon Cable Tie

CV/BP SERIES

- Good tensile strength, longer lifespan;
- Effectively manages wires, cables, gardening and packaging for tidiness.

Floor Drain

6310-10 / 6310-60

JUSTIME Design Team has reduced both body and core thickness to get more space from drainage that increases the draining rate and solve the drainage problem caused by the drain thickness. Drain's core has been designed to close and seal when there is no incoming water to prevent bugs and bad odors from coming out. The floor drain is combined with a 127-hole stainless steel filter to prevent obstruction and maintain the smooth functionality of drainage to increase the lifespan of the core. Face plates of Floor Drains have been designed with geometric rectangular figures and irregular water drop figures. Combined with different finishing treatments, floor drains would be easy to integrate into floor tile design and beautify bathing spaces.

Still One Bath Mixer W/ Pop-Up Waste & Overflow

6234-K0

Still One is equipped with 4 functions: temperature control, bathtub filler, drain, and overflow. One product replaces complicated devices and better implements bathroom spaces, making them easy to maintain.

Justime Lucky 7 Two-Handle Wall-Mounted Basin Faucet

Justime Lucky 7

Seed is the fountainhead of all creation, but not all seeds are lucky enough to sprout and grow up, therefore, each budding seed is the symbol of hope and happiness. Spout of 'Lucky 7' is like a growing stalk to present the various styles as creative ideas of designers. Lucky 7 Series Faucet not only decorates the living space, but it will also bring good fortune and inspirational happiness. Infusing users experience and ideas, spout was designed and fine tuned to fit for different basins or special demands. Geometric shape not only makes the whole design succinct, but also saves the time and cost.

Justime Still One Water Drinking Faucet (Cold Only)

6770-G0-80P1

Still One series is simple but well-equipped. Inspired by the concept of 'Less is More', the simple designs are integrated into the design concept, which can be used for all kitchen layouts. Using #304 and #303 stainless steels as its primary materials, the faucets are acid, heat and erosion-resistant. The surface is chemical-free to protects users from all harms. The handle's cartridge structure is different from traditional brass, rubber and ceramic cartridges; it is designed with stainless steel structure with the handle lifespan up to 200,000 switches. All crucial parts are made of nontoxic stainless steel to ensure safe drinking.

Justime Ether Bathroom Accessories

6781-BA

The overall concept of ETHER collection is based on the idea of ether, an unlimited medium filling any and all space that was discussed by Greek philosophers and Chinese Daoists. Smooth lines and soft characteristics signify the aura of ether, which moves like an ever-present ocean current. The unique design of ETHER breaks with traditional shapes, bringing the products to a new and artistic level.

7 in 1 Multi Bit Ratchet Screwdriver

T2007MB

- Lancer's ergonomic handle reduces user fatigue after long usage;
- Revolver style bit storage for 5 pieces of high-quality bits; easy to read tip selection windows for fast changing;
- High-torque ratchet mechanism ensures higher efficiency and functionality;
- Smart ratchet supports free-turning ratchet with integrated switch for forward, locking, and reverse operations.
- The 1/4" hex long bits allow users to operate for extended distances. The bits can also be used for power tools.

SIMLEAD Safety Drawer System with Push Open, Soft-Closing and VSD

1N86

Three main innovations

- Vibration Safety Design (VSD): Drawer does not pop out if accidental shaking or vibration occurs;
- Ever-Active Push Open Design: Drawers can be pushed open from a closed or any partially opened position, and smoothly closed without bouncing back;
- Switchable Push Open Design: Push open function can be enabled or disabled by a simple flip of a switch. Designers have more flexibility in adjusting the product functionality based on their needs.

SPINNING IMPACT EXTENSION

The Tien-I Patented Spinning Impact Extension saves users 15% of time with its innovative alloy adjustable handle. Patented Adjustable Spinning Impact Extension is the perfect tool for fastening or loosening long fasteners in hard to reach places, and does so quickly. A sliding aluminum collar with knurled handle can be locked in three positions. An ergonomic roller-bearing handle is toughly mounted to the impact extension. It protects your hands from friction burns and provides a handle to hold and help balance heavy-impact tools.

Adjustable Concealed Soft-Close Hinge

9252

Developed to overcome the soft-close adjustment limitation of the soft-close hinges currently available in the market. It offers variations of soft-closing strengths for different sizes and weights of cabinet doors, ensuring all cabinet doors close properly.
