

The best craftsmanship comes with the right tools – The Taiwan Excellence Pavilion at the 2020 International Hardware Fair Cologne will introduce a unique range of products.

Representing top-level innovation and competitively-priced products, Taiwan is a world-class hardware manufacturing powerhouse. Taiwan plays a key role in the global supply chain in the hand tool industry, ranking first in sockets and associated components, third in unit price, and sixth in hand tool exports worldwide.

This year, Hall 4.2 A030 will house a selection of quality and innovative Taiwan Excellence products from 15 Taiwanese companies. These products will meet the needs of hardware buyers worldwide with master-class offerings that are perfect for DIY enthusiasts.

The Taiwan Excellence Award is awarded annually and honors Taiwan's most innovative products. Brands carrying this symbol are chosen and awarded by both experts and the Taiwanese government on R&D, design, quality and marketing criteria. It represents the best of made in Taiwan.

Highlights of this year's Taiwan Excellence Pavilion

SLOKY

With 40 years of experience, Chienfu-Tec Co. LTD. is dedicated to producing high-precision metal CNC machine parts and provides total solutions for CNC customization. In 2012, the firm launched "Sloky", the smallest torque screwdriver on the market, originally designed for CNC cutting tools in machining, lathing, turning and milling parts.

Togo Kit: Torque Screwdriver: The best-selling multi-kit, which comes with 6 pcs of 25 mm and 50 mm bits on both universal and straight handles, offers a user-friendly experience in machining, turning and milling CNC cutting tools.

CHIAO TENG HSIN ENTERPRISE CO., LTD.

Founded in 1990, Chiao Teng Hsin Enterprises Co. Ltd. has the ISO9001 system certification from SGS Taiwan. They design, produce, manufacture and market an array of professional aluminum and fiberglass ladders.

Aluminum Telescopic Steady Support: For operating platforms with exceptional stability and safety at all types of construction sites, the Aluminum Telescopic Steady Support is made up of four frames. It uses a multifunctional joint ladder structure and features hidden-style stainless steel shrapnel. As with every good tool, it works well with existing structures and can be installed on other, less secure ladders. While installed, each step can hold a load of 150 kg, and its slip-resistant rubber feet allow ladders to be safe and stable at various work sites.

KW-triO

Pao Shen Enterprises Ltd. has been manufacturing stationery and office supplies since 1976. The brand name "KW-triO" has become synonymous with trendsetting, becoming a worldwide leading manufacturer of desk top accessories as well as hand tools and paper trimmers/guillotines for export to over 110 countries.

Easy-Tech Tacker: An ergonomic design product with an effort-saving mechanism that guarantees vertical or upside-down stapling will no longer be a hassle. They understand that tacker users have a hard time trying to use tackers because of the heavy handle force. The normal tacker requires 28lbs~45lbs of squeeze force. However, this Easy-Tech Tacker requires only 20~23lbs of squeeze force per time, and reliable steel housing will make your project efficient.

UNITACKER

Established in 1983, Same Yong is a professional stamping manufacturer of metal parts. Furthermore, they started to design/develop and produce a completed unit of staple guns over the last decade. Breaking through traditional concepts, they design/develop/manufacture their own fool-proof staple guns that accept different gages of staples.

Six-on-one multi-staple aluminum staple gun tacker: A user-friendly multi-staple aluminum NO-SWITCH tacker staple gun. Tackler guns can support up to six different specs of staples without switching. Users can get this one tacker gun to complete all their necessary tasks. It can also be considered a green product as it saves the need for several tackers catering to different staples.

KING SLIDE

Founded in 1986 as a furniture hardware manufacturer, King Slide is known for its advanced production design integration with tooling and machinery. The firm has become an internationally renowned ODM supplier of green products in server rail kits and industrial rail. It is also a powerhouse in home furniture hardware. King Slide is a certified supplier to many leading companies in high-end furniture, kitchens and household appliances.

SIMLEAD Safety Drawer System Slide: A Taiwan Excellence Silver Award product by King Slide Works Co. Ltd. SIMLEAD is an elegant metal drawer system with a non-electric, all-mechanical design, with Push-Open, Silent Soft Closing and Built-In "Vibration Safety Design (VSD)". The system comprises metallic side walls and full extension runners, offering the world's first Drawer Safety & Friendly Design. To ensure that a home or office in the future has storage space that is not just whisper-quiet, but secure and smart, drawers can be pushed from closed or any partially-opened position and smoothly soft-closed without bouncing back.

About Taiwan Excellence / Bureau of Foreign Trade, MOEA and TAITRA

The symbol of Taiwan Excellence was established in 1992 by Taiwan's Ministry of Economic Affairs. Subsequently, Taiwan Excellence Selection was launched the following year. Selection is based on the distinct criteria of R&D, quality, design and marketing. Products that have been selected for the Taiwan Excellence Awards serve as examples of local industries to be promoted by the government in the international market in an effort to shape the creative image for Taiwanese businesses. This year marks the 28th selection, making the symbol of Taiwan Excellence a prestigious brand for businesses in Taiwan to strive for and be recognized by. It is highly reputed throughout the world. Please visit www.taiwanexcellence.org for more information.
